Social Media Survey 2025

Conducted by Ipsos European Public Affairs at the request of the Public Opinion Monitoring Unit, Directorate-General for Communication, European Parliament

Archive dataset version 1.0.0 (2026-02-18)

Archive issues and errata:

- Seven cases needed to be deleted due to a de-anonymization potential.
- In contrast to the questionnaire, multiple answers are also allowed on question q4b.
- The filter for variables q15 and q16 is incorrectly formulated in the questionnaire: In q4a, response options 5 and/or 7 may have been selected by respondents in order to be included questions q15 and q16.
- The questionnaire uses the following wording for variable ds (gender): "What is your sex?" The source dataset asks for gender using the following wording: "Which of the following describes how you think of yourself?"
